The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. An automotive vehicle is being claimed however there is no recited structure that constitutes an automotive vehicle. Only structure for a refrigerant level monitoring apparatus is recited in this claim.

Claims 1 and 3-5 are allowed.

Applicant's arguments with respect to claim 6 have been considered but are moot in view of the new ground(s) of rejection.
